

Installation Guide For Phpfox

Step 1: Upload all of the files and folders contained in zip file (in the "/upload" directory) to your server.

Step 2: Login to your PhpFox Admin Control Panel. From the Top Menu "Extension" select "Product" -> "Import Products".

Step 3: On the page you will see the newly uploaded product named "Fan Victor". Click the "install" link.

The screenshot shows the AdminCP interface. At the top, there is a navigation bar with 'AdminCP' on the left and 'Logged in as tuan | ViewSite' on the right. Below this is a menu with 'Dashboard', 'CMS', 'Users', 'Extensions', 'Settings', 'Tools', and 'Modules'. A search bar is also present. The main content area is titled 'Import Products' and includes a breadcrumb 'Product » Import Products'. A 'Manual Install' section contains a table with the following data:

Product	Version	Action
Fan Victor Fantasy Sports System	1.0	Install
Feature Feedback Feature Feedback	1	Install

The 'Install' link for 'Fan Victor' is circled in red. At the bottom right of the page, there is a 'SiteName ©' watermark.

Step 4: After the plugin installation, from the Top Menu "Settings" select "Manage Settings".

The screenshot shows the AdminCP interface with the 'Settings' menu open. The top navigation bar is the same as in the previous screenshot. The 'Settings' menu is expanded, showing options: 'System Settings', 'Payment Gate ways', 'Manage Settings', 'Add NewSetting', 'Add NewSetting Group', and 'Find Missing Settings'. The 'Manage Settings' option is highlighted with a white background. Below the menu, the 'Feature Feedback' product is visible in the table, with the 'Install' link. At the bottom right, there is a 'SiteName ©' watermark.

Step 5: On the Manage Settings page, find and click "Fan Victor".
